- cASM use on PACOM exercises FY12

Path to Warrant SOCPAC Civilian KO

Background

- SOCPAC had no Organic contracting Capability
- JMD positions never filled
- Garrison req filled by EA (Navy)
- No deployable capability in support of JTF-510 (standing JTF iso USPACOM)

Discussion

- KO will work selected garrison, selected exercise, and deploy in support of JTF-510 exercise or real world event
- Partial embed with local service contracting agency splitting time between HQ and supporting command
- Any excess capacity could be used by supporting command

Actions to date

- SOCPAC hired civilian KO
- Retired AF MSgt
- Level III Cert
- 24 years KO experience
- Arrives on staff mid-August

Way Ahead

- Request PCCOWG assist in determining path to warrant SOCPAC KO
- Navy path - PACOM EA?
- Army path - HCA?
- IT requirements (funded by SOCPAC)?

NAVFAC Provided Information

NAVFAC has two external support contracts:

- Global Contingency Construction contract, managed out of our Atlantic HQ in Norfolk VA
- Global Contingency Service Contract that we manage from our Pacific HQ

These contracts are both Cost Plus award Fee type contracts with task Orders written as required and are available globally

NAVFAC PAC Provided Information

- NAVFAC has contracting offices in Bangkok Thailand and Manila
- NAVFAC support various PACOM missions from these offices including HA, ERC, GPOI, JIATF-W and JOSTF-P
- These offices could be used as contracting hubs during any contingency within the AOR

Discussions

- Lead Service MOA
- JCCS for Exercise / Contingency
- Joint FTX
